

Rule 13.03 Additional Optional Tournament Formats

This format is available for the calendar year 2011 only.

1. In unseeded Class C and below tournaments and at the discretion of the LOC upon Sanctioning, a skier may elect to begin his FINAL round of a multi-round slalom event .
2. 13.01 (d) does not apply
3. The protocol for this format on the Rules Committee website MUST be followed.

Rationale and Protocol for the web:

2011 "Turn and Burn" Protocol Slalom Only

DEFINITION:

In Class "C" unseeded tournaments (see Hints and Other Matters below) and at the discretion of the LOC, a skier may elect to begin his FINAL round of a multi-round slalom event immediately upon the completion of his current round; aka "turn and burn (T&B)."

Key points:

1. Can only be offered in Class "C" and under (non-seeded) tournaments.
2. Only applies to FINAL round of a multi-round SLALOM tournament.
3. Turn and Burn is an OPTION for the skier – cannot be mandatory.

BEFORE THE TOURNAMENT:

- A. Download these instructions. They may be helpful as a reference.
- B. Use of the Turn and Burn format should be in tournament announcement -either in title or in comments section. If this is not feasible then an email should be sent prior to the tournament to each skier entered in the tournament announcing the format.
- C. Use of the format must have approval of all Chief and Appointed officials.
- D. In planning skier groupings and officials assignments add 3 mins for each skier who the LOC anticipates will use the format. Plan groupings to avoid prolonged assignments for officials.

DURING THE TOURNAMENT:

- A. Skier can either:
 1. Establish intent to T&B at the starting dock OR
 2. Signal boat crew immediately upon completion of a round by waving hand over head in a circular motion.
- B. T&B must begin at the drop area near the starting dock where all previous rounds began.
- C. Skier can elect to start at any speed/line length they choose -similar to a normal round.

Scoring:

WSTIMS can be used by opening two rounds and toggling back and forth OR Paper score the T&B skiers and enter results into WSTIMS at a later time.

AFTER THE TOURNAMENT:

A. Scorer(s): Prepare an Excel spreadsheet listing the sanction ID, date, skier name, membership number and round in which T&B was initiated (1st or 2nd). This can easily be prepared from the WSTIMS Registration Worksheet. See "Hints" below for steps in preparing this.

B. Submit the Excel listing of skiers who chose T&B and a copy of the scorebook to Joe Darwin, AWSA National Coordinator for T&B at:
jdarwin@lakesatcottonwood.com

C. Submit scorebook to Regional Seeding person as you would normally.

HINTS AND OTHER MATTERS:

A. Seeded tournaments refer to those that give awards including awards for placement. It does NOT mean the "groupings,"-ability and otherwise -that may be used in many slalom tournaments.

B. Don't use this format on a whim. It takes careful planning by officials and tournament director. There must be excellent communication between tower officials, scorers and boat crew during last two rounds. Skiers may become frustrated by longer wait to ski in next to last round. Prior communication is essential (tournament announcements, etc.) and dock chatter is helpful in learning just who is contemplating using T&B to enhance individual planning. If your club is very comfortable with existing protocol stick with it. T&B takes planning and flexibility. If your region allows regional records to be set in Class C tournaments be sure that this format does not clash with those policies.

C. At a well run T&B tournament skiers are initially enthusiastic about the format; they are intrigued with the strategy that T&B skiers use. This may wane with overuse. Consider varying format with others; e.g. Head-to-head, etc.

D. Scorers: Preparing the required listing of T&B skiers can easily be done using the WSTIMS Registration Worksheet. This may not be the only way but it is simple. From the original listing add a column as follows and mark the skiers who used T&B:
